# SONICBOOM™ JET

SONICBOOM JET is a revolution $CO_2$ jet simulator with stronger burst and massive instant fog output up to 15m. SONICBOOM JET simulate traditional $CO_2$ jet to the greatest extent through our patented supercharging technology, which ensure much faster burst and higher effect than existing smoke jet product on market.

## Features

\ Patented supercharging technology, stronger burst

\ Dense smoke column up to 15m

\ Powerful dual smoke generation system, dual output

\ Whole metal piping system, reliable and longer service life

\ 6L built-in stainless steel fluid tank with mechanical fluid level indicator

\ Unique constant pressure system, consistent smoke effect;

\ 30pcs 9W LED,independent smoke column color change.

\ No generation of $CO_2$, environmental friendly

\ Unlimited installation angles even up-side-down

\ Cost effective consumables

## Specifications

**Dimension**

   546 x 331 x 372 mm

**Weight**

   37 kg

**Voltage and Fuse**

   AC220-240V, 50/60Hz, 15A/250V

   AC100-120V, 50/60Hz, 18A/250V

**Work Power**

   3000W/1800W (220V version)

   2400W/1800W (110V version)

**Max Output Height**

   15m

**LED power**

   9W*30PCS

Max Continuous Output Duration
6s

Smoke Output
150000cuft/min

Tank Capacity
6L, stainless steel built-in tank

Fluid Consumption Rate
1.1min/L

DMX Channels
1/11/14 channel switchable

Fuels
FX-S, FX-M
